USB Cat.5 KVM Extender

KVM-9006

H/W Version: 1

The KVM Cat.5 USB Extender Kit is a pair of devices (Transmitter and Receiver) for high-density applications where you want full use of the keyboard, mouse, and monitor, but there is no room for a server nearby.

It allows users to access a computer, server or KVM switch up to 150m away. Or for applications where you want to put all computers in a safe place, all that is needed on the desktop is a single keyboard, monitor, and mouse.
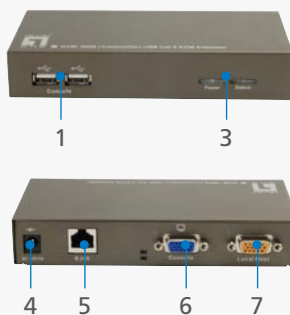

KVM-9006 has auto-adjustable RGB gain/delay control capability for superior video performance. On the local console it supports resolution of up to 1920 x 1440 and on the remote side it supports 1280 x 1024.

This makes KVM cat.5 USB Extender and excellent solution for increase your productivity while helping reduce desktop space.
