Wireless Party Speaker

The Conceptronic Wireless Party Speaker is a Bluetooth multimedia speaker which connects wirelessly to a Bluetooth mobile phone, PDA, laptop or PC. Light enough for easy carrying but with plenty of size and power, the speaker will always get the party started wherever it might be. As well as being portable, the device is versatile enough to work with low-power USB devices and can play music directly from a micro storage chip or USB drive. The battery recharges with a standard USB chord and charger, so can be powered up from the USB port in your car, via a laptop or using mains power - making it the perfect companion for trips away or parties in the great outdoors.

Highlights

- > Bluetooth 4.0 wireless connectivity
- > Passive HIFI SUBWOOFER Speaker
- > 1200mA rechargeable battery built in. Sustains 24hrs standby and 6hrs operation at medium volume
- > Plug and Play MP3 music from Micro SD/TF card, USB
- > FM radio function
- > Select your music track from the speaker push button
- > Bass and Volume controls
- > USB Powered
